## Evaluation Grid: cross-cutting elements

|  |           |
|--|-----------|
| plans to adapt to such risks materialising, or assumptions not being fulfilled?  |           |
| 2.4. Are the activities feasible and consistent in relation to the expected results (including timeframe)? Are results (output, outcome and impact) realistic?   | 5         |
| 2.5. To which extent does the proposal integrate relevant cross-cutting elements such as environmental/climate change issues, promotion of gender equality and equal opportunities, needs of persons with disabilities, rights of minorities (including Roma communities), youth, outreach to grassroots and citizens? | 5         |
| <b>Maximum total score</b>   | <b>50</b> |

**\*\*:** this score is multiplied by 2 because of its importance

Once all concept notes have been assessed, a list will be drawn up with the proposed actions ranked according to their total score.

Firstly, only the concept notes with a score of at least 30 will be considered for pre-selection.

## Evaluation Grid: cross-cutting elements

|   |            |
|---|------------|
| 5.3. Are the expected results of the proposed action sustainable?- Financially (e.g. financing of follow-up activities, sources of revenue for covering all future operating and maintenance costs)- Institutionally (will structures allow the results of the action to be sustained at the end of the action? Will there be local ‘ownership’ of the results of the action?)- At policy level (where applicable) (what will be the structural impact of the action — e.g. improved legislation, codes of conduct, methods) - Environmentally (if applicable) (will the action have a negative/positive environmental impact?) | 5          |
| <b>6. Budget and cost-effectiveness of the action</b>   | <b>15</b>  |
| 6.1. Are the activities appropriately reflected in the budget?  | 5          |
| 6.2. Is the ratio between the estimated costs and the expected results satisfactory?  | 5x2**      |
| <b>Maximum total score</b>  | <b>100</b> |

\*\*: this score is multiplied by 2 because of its importance

## 2.1.5. Ethics clauses and Code of Conduct

### a) Absence of conflict of interest

The applicant must not be affected by any conflict of interest and must have no equivalent relation in that respect with other applicants or parties involved in the actions. Any attempt by an applicant to obtain confidential information, enter into unlawful agreements with competitors or influence the evaluation committee or the contracting authority during the process of examining, clarifying, evaluating and comparing applications will lead to the rejection of its application and may result in administrative penalties according to the Financial Regulation in force.

### b) Respect for human rights as well as environmental legislation and core labour standards

The applicant and its staff must comply with human rights. In particular and in accordance with the applicable act, applicants who have been awarded contracts must comply with the environmental legislation including multilateral environmental agreements, and with the core labour standards as applicable and as defined in the relevant International Labour Organisation conventions (such as the conventions on freedom of association and collective bargaining; elimination of forced and compulsory labour; abolition of child labour).

## Environment and fight against climate change

Environment and climate action are key priorities for the EU now and in the future. The [European Green Deal Communication](#) is the European new growth strategy and recognising the key role of schools, training institutions and universities in engaging with pupils, parents, and the wider community on the changes needed for a successful transition to climate neutrality by 2050. In addition, the [Council Recommendation on learning for the green transition](#) emphasizes the need to provide learners of all ages with opportunities to find out about the climate crisis and sustainability through both formal and non-formal education, and to make learning for the green transition a priority in education and training policies and programmes. Sustainability should become a part of the entire spectrum of education and training, including curricula, professional development for educators as well as buildings, infrastructure and operations. The Erasmus+ programme is a key instrument for building knowledge, skills, and attitudes on climate change and supporting sustainable development within the European Union and beyond. The programme will increase the number of mobility opportunities in green forward-looking domains which foster the development of competences, enhance career prospects and engage participants in strategic areas for sustainable growth, with special attention to rural development (sustainable farming, management

Bregu: No Green Transition

Our objective is clear: to drive the green transformation of the Western Balkans by effectively facilitating the implementing the Green Agenda for the Western Balkans (GAWB) Action Plan 2021-

- Align the region with the EU's 2050 ambition to make Europe a carbon-neutral continent
- Unlock the potential of circular economy

The screenshot shows the top navigation bar of the WBF website with links for Home, About Us, News/Events, Our Grantees, More, Gallery, and Contact. Below the navigation is a large blue banner for the ERC Grants Scheme. The banner features the European Union flag and the WBF logo. The main text on the banner reads "ERC Grants" in large white letters. Below this, it says "WBF launches the new ERC Grants Scheme! Call awarding up to 30.000 EUR to regional projects is open!". There are also smaller text elements like "CALL FOR PROPOSALS IS OPEN" and "MAY 9, 2024".

# Specific Calls:

The screenshot shows a website navigation bar with the following menu items: About, Members, Resources, Grants, News, and Events. Below the navigation bar, the main heading reads "Gender-Responsive Climate Finance Window". A breadcrumb trail indicates the path: Design Funding > Gender-Responsive Climate Finance Wi... Below this, there is a "Download this page" link. The main content area features a bold announcement: "The Gender-Responsive Climate Finance Window is now accepting Concept Notes for its Fall Round (Cycle 5) until August 30, 2024." This is followed by a paragraph explaining an info session held on July 17 and a link to watch the recording. Another paragraph states that interested applicants can apply here, with a preference for climate adaptation vehicles at the proof-of-concept stage. The final paragraph discusses the risks of climate change and the need for infrastructure and resources in vulnerable regions.
